APPLICATION FOR SINGLE GROUP LICENSE

Application is made for a single group license in accordance with A.R.S. § 36-422(F) or (G). An accredited hospital may include designated accredited facilities of the hospital which are located separately from the main hospital building if the accrediting body standards for all the facilities meet or exceed Department licensure requirements. If the designated accredited facilities are located farther than one-half mile from the main hospital building, the Department shall issue a single group license to the accredited hospital and not more than five of its designated facilities. In addition to accrediting body standards, each facility included under a single group license is subject to the Department's licensure requirements that are applicable to that category of facility.
